REMARKS

The foregoing amendments are made to insert the required SEQ ID NO identifiers associated with each listed sequence in the specification and figures. In addition, the figures have been further amended to delete superfluous matter therefrom (and incorporate descriptors previously presented in the figures into the text of the specification). No new matter is introduced by the subject amendments.

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.

In the event any issues remain to be resolved in view of this communication, the Examiner is invited to contact the undersigned by telephone so that a prompt disposition of this application can be achieved.

Respectfully submitted,
